From the president

RAY ANDREWS OAM

Well here we are at the end of another shooting year with Christmas just around the corner.

The last two PA International competitions have just concluded in Metallic Silhouette and Action pistol. The Oceania Metallic Silhouette Championships were held in New Caledonia between Australia, New Zealand and New Caledonia and the small Australian team came away as the big winners. The team comprised Kim Emery, Mick Arden and Keith Rigby with the Manager Judy Harding. For a three member team competing in all three events they did exceptionally well finishing 1st in all team events Big Bore, Small Bore and Field Pistol.

Individually in Big Bore 1st Kim Emery, 2nd Mick Arden, Small Bore 1st Kim Emery, 2nd Keith Rigby, 3rd Mick Arden and Field Pistol 1st Kim Emery, 2nd Mick Arden. Great effort.

The 2016 World Action Pistol Championships were held at the Whangarei Pistol Club New Zealand in early November and the Australia Team comprising Zeljko Cvetnic, Brett Foster, Craig Ginger, Andrews Penny, Anita Mackiewicz and Cherie Blake with Team Manager Geoff Horton also performed well. The two girls Anita and Cherie outshot the men with Anita 2nd and Cherie 5th in the open event and first in the ladies Team. Brett and Craig combined to win the Metallic Sight Team event and Brett, Craig, Andrews and Zeljko were 2nd in the Open Team Event only 7 points behind New Zealand. The next World Championships will not be until 2020 as it has changed from a two to a four year cycle.

It was interesting reading the results and I noted a competitor from Germany competing, Roman Hauber who is the current World Champion in WA1500 Pistol and Revolver.

The provisional 2017 Action Pistol Team has been announced as Nigel Gordon, Brett Foster (QLD), Mark Blake, Cherie Blake, Anita Mackiewicz and Zeljko Cvetnic (VIC).

Also announced are the appointed Team Managers for 2017, Judy Harding (Metallic Silhouette) Marin O'Brien (WA1500) and Geoff Horton (Action Pistol).

I have good news for our WA1500 members in that the October Executive Meeting agreed to a submission from the National Coaching Council (NCC) to form a National Training and Development Squad (NTDS) for WA1500. It will be similar to our ISSF/Olympic events National Development Squad (NDS). It is envisaged that during 2017 there will be one training camp for up and coming athletes possibly before the Easter Nationals and one for the 2017 selected Team prior to going to the 2017 World Championships which will be held mid - August in Alsfeld Germany.

I can also report that PA is submitting a notice of motion to the 2017 WA1500 Association Annual General Meeting to host the WA1500 World Championships in Australia in 2019.

The two major events coming up early in 2017 are the Metallic Silhouette Small Bore/Field Pistol National Championships in Canberra early March followed by the PA/ISSF National Championships at Easter in Cessnock.

I take this opportunity to wish all our members a great Christmas and a Happy New Year, good health, good shooting and enjoyment in 2017.

May all your shots be 10s. ♦

From the NCC

BY AL LOZSAN

Sighting and trigger press

Often shooters find themselves with a perfect sight picture and fire the shot only to scope it and find it is nowhere they thought it would be and they were certain they had all the sights aligned and in the "right spot" to shoot a ten.

What generally happens is the mind says everything is ok so press the trigger NOW! To overcome this, one must combine trigger press and sighting at the same time.

As the sights are aligned and all is ready for that perfect shot, the conscious mind takes over and makes the trigger finger move and the time delay in all this happening causes the trigger press to be a violent movement rather than a gentle consistent pressure being applied until the shot breaks.

Let us look at setting up a precision shot. Raise the pistol above the target and have the sights roughly aligned so that you are seeing the back of the hand, the sights, your shirt sleeve etc. Trigger "feel" is applied so that some pressure is taken up above the target. I would suggest we call this "Pad Pressure". At this stage you are not really focusing on any one particular "thing" but seeing everything in a "picture frame" and consciously "feeling trigger".

Lower the pistol so that it enters the target in a straight line and slows down as it goes through the black and finds an area under the black that you would normally hold in. As the sights are coming through the target, increase focus of attention onto the sights and this will actually slow the pistol's movement through the black. When the sights are in "your" area, be sure you are ready to fire the shot. This is the stage we may call "settling".

It may only take a second or two, but at this point you have a choice to continue the shot or cancel the shot. If something looks or feels wrong, then cancel the shot and start over. The setting up of the shot is most important for the learning of correct shot procedure. If you decide that it may not "feel" ok, but you then decide to "battle" through the problem, you will find that in the long term, it will become detrimental to your outcome of a good controlled shot as it becomes a "hit and miss" situation in setting up the shot.

At this stage all focus should be upon the front sight and its alignment. During this "intense" focus, the trigger is being pressed whilst the sights are being aligned. This is the most critical part of any shot, that the sighting and trigger press is being combined. For a beginner shooter this may be very difficult to achieve,

as the apparent "wobble" area on the target is rather large. It is an instinct to wait until the pistol sights appear in the correct area or "spot" to fire a good shot only to consciously "jerk" the trigger to misalign the sight resulting in a poorly placed shot.

With practise, it will become a sub-conscious action. The initial outcome may not be as desirable as you wish, but in the long term, you will be improving your skill to a level where you will be able to have the sights within your area of hold and the trigger finger begins its action of pressing without any real conscious effort.

This can be practiced with dry fire or live fire onto the back of a target (blank card) or even just shots into the target butts.

The most difficult aspect is to gain enough self confidence in your ability to hold the sights aligned whilst pressing the trigger. Achieve this and you will be surprised at the results. ♦

From the NRC

BY SHARON REYNOLDS, NRC DIRECTOR

Proposed changes to the ISSF rules

Many of you will have seen the draft released by the ISSF a few weeks ago. Over the past two days I have been involved in the Pistol Section Committee meeting, where the new rules, and many inconsistencies in the rules, were discussed.

You need to understand that this is only the first layer! The next step will be for the proposed rules, including any changes suggested by the section committees, to go to the Technical Committee. They finalize the wording of the rules and check for any inconsistencies and errors. The rules then have to be signed off by the Administrative Council members – who also have an opportunity to change, tweak, ignore or accept all the proposed changes. Is it any wonder the final result is often not what we expect?

At Pistol Australia acceptance of the new rules is not automatic. Over the next couple of months the NRC will be studying the changes and will make recommendations to Management on acceptance or otherwise of the changes. Examples of some rules under consideration would be

- Side blinders are no longer permitted for rifle & pistol – we will probably recommend that this rule not be enforced. We have never enforced the rules relating to the size of blinders and where they are worn so this would be consistent. There is also the safety consideration of using side blinders.
- Malfunctions in a sighting series may not be claimed, refired or completed – we will consider this carefully but there is no real reason for not accepting this rule. NOW is the time to disagree with me by the way!!
- The intention in 2013 was to do away with shoot-offs in all 25m events – but due to the rule book being wrong this was not clear to everyone. This has been tidied up (finally) and will be accepted.
- The proposed rule relating to fibre optic and light reflecting sights is still shrouded in a fog of ignorance so we will probably recommend that PA ignore it!

Once the new ISSF rule book is released and Management have approved the NRC recommendations a summary of the changes will be posted on the NRC website. The PA print of the rule book will probably take a little longer!

NEW FINALS rules will be adopted immediately and will be used at the 2017 Nationals in Cessnock– this has been approved by PA already. These rules are as follows.

10m and 50m Finals

These finals are now 24 shot finals. The first two series are now 5-shot series and are fired in a time of 250 seconds (previously 3-shots in 150 seconds). The athlete in 8th place is now eliminated after the 12th shot rather than the 8th shot. The rules for paper targets will be released before the end of the year – but the most likely scenario is that the athletes will have 5 targets for each of the two 5-shot series, and the time allowed will be 300 seconds to allow for the changing of the targets.

25m Pistol women Final

This is now an elimination event, using the hit/miss scoring. All finalists fire 4 series (RFS), at which point the athlete in 8th position is eliminated. Subsequently one athlete retires after each series until only the gold and silver medallists remain. The 10th series (barring shoot-offs) decides the gold and silver medals.

This final was used at the World Cup Final in Bologna this year and was favourably received by everyone involved. ♦

Volunteering at the Commonwealth Games 2018

If you are thinking about volunteering for the 2018 Gold Coast Commonwealth Games NOW IS THE TIME to register on the website. This applies to EVERYONE who is hoping for a role. While some jobs, such as a range officer, will have some pre-requisites there are many others that will require no prior qualifications other than an interest in supporting your sport at a major event. You will have the opportunity to apply for specific roles once the actual volunteer program opens.

The volunteer program will open, in February and there will be only four weeks in which to apply for a position. By pre-registering now you will be advised once the program opens. If your name is not on the list you cannot be selected. There will be many roles available including range officers, administration staff, armoury assistants, etc.

The process is as follows

- Open your browser and go to www.gc2018.com/take-part/volunteering
- Scroll down the page and enter your details to pre-register

WASA Awards

BY GRAEME NICHOLLS, WAPA SECRETARY

In WA we have a peak body for shooting sports called the WA Shooting Association. Its membership includes big and small bore rifle, clay target, pistol and archery.

Each year they present awards for the best achievements in a number of categories. This year WAPA nominated Gwendolyn Liang in the junior category, Mike Knapp in the senior category and Linda Jekel in the international category. Linda was the winner for her achievements in WA1500.

She was selected in the Australian Team to compete in the European Open Championships at Borek in the Czech Republic, achieving the top ladies position in five events and finished as high as 6th outright in the combined mens/ladies rankings. This topped off a great year in which she broke her own Ladies High Score

record in Pistol and set a new High Score in Revolver.

Those who have seen her train know the dedication and hard work that underpins these achievements.

The awards also include a category for Service to Sport. This is a great innovation as it gives recognition to the grass roots club or association workers who make the sport possible, but rarely get acknowledgement.

We can all think of some. This year at the recommendation of his grateful club members, WAPA nominated the President

of the Ord Pistol Club, Mr Murray Shiner. Murray was a foundation member of the Ord Pistol Club when it was established in 1970 and has been President for 38 years. He also holds the position of club armourer, range officer, coach, new member mentor, issues firearm serviceability certificates, and a few other duties.

An incredibly tireless worker. Although Murray didn't win this year, WAPA was pleased to see his efforts recognised at the awards dinner. ♦

Pistol Australia Team Managers Announced

Pistol Australia would like to congratulate Geoff Horton (VIC), Judy Harding (QLD) and Martin O'Brien (NSW) on their selection as Team Managers for 2017 Pistol Australia Teams.

Geoff Horton has been reappointed as the Action Pistol Team Manager, the team will compete at the 2017 Bianchi Cup to be held in Columbia, USA 21–27 May 2017.

Judy Harding has been reappointed as the Metallic Silhouette Team Manager, the team will compete at the 2017 IMSSU European Championships to be held in Decin, Czech Republic from 17–29 July 2017.

Martin O'Brien has been reappointed as the WA1500 Match Team Manager, the team will compete in the 2017 European Championships to be held in Alsfeld, Germany from 16–20 August 2017.

2017 Action Pistol Team Selected

After a successful Bianchi Cup and World Action Championships, the 2017 Action Pistol Team has been announced for 2017.

Cherie Blake (VIC), Mark Blake (VIC), Zeljko Cvetnic (VIC), Brett Foster (QLD), Nigel Gordon (QLD) and Anita Mackiewicz (VIC) will join recently appointed Team Manager, Geoff Horton to attend the 2017 Bianchi Cup in Columbia, USA 21–27 May 2017.

World Action Pistol Championships

BY GEOFF HORTON, TEAM MANAGER

The Australian Team, Cherie Blake, Anita Mackiewicz, Brett Foster, Zeljko Cvetnic, Craig Ginger and Andrew Penney crossed the Tasman Sea to Auckland and then travelled north to Whangarei, to compete in these Championships.

Whangarei and its surrounding suburbs, is approximately two hours north of Auckland, on the eastern side of the north island.

At this time of year, weather in the Whangarei area tends to be similar to Melbourne or Canberra. During our stay, temperatures ranged from high teens to mid-twenties, with some showers and overcast conditions.

Whangarei has an urban population of around 53,000, with the balance of the district's approximately 87,000 people living in coastal and rural communities.

In the hills to the north west of the city there are a number of small now un-used quarries, and the host club for this competition is situated in one of these.

The Whangarei Pistol Club has two fifty meter ranges, between which are located the barricade and plate ranges, and behind these ranges is the mover. Quite a compact set up.

With the limitations on the carriage of ammunition by plane, our shooters chose to restrict their practise, concentrating on any area which they felt required their attention.

This also allowed for a little sightseeing, with the renown Bay of Islands a relatively short drive away, and other areas of interest.

The matches were conducted over 3 days with the Metallic Sight and secondary gun matches being contested first.

Our Metallic team of Brett (1852/115X) and Craig (1868/119X) were placed first (3720/234X) ahead of SSAA team (3716/219X) and New Zealand "A" (3693/238X) in third place.

The Open matches (and primary gun) matches followed with the Team members well up the lists for each of the events.

In Practical, members placed:

Craig	3 rd	480/41X
Cherie	4 th	480/39X
Anita	6 th	480/37X

Placing in Barricades were:

Craig	3 rd	480/41X
Brett	5 th	480/47X
Anita	8 th	480/46X

Plates were also well contested:

Craig	1 st	480/156X
Brett	2 nd	480/149X
Anita	9 th	480/69X

It was however the Mover which caused our members some concerns and results were down a little to their normal performances:

Cherie	5 th	478/34X
Brett	8 th	476/35X
Anita	9 th	476/31X

Overall results for our team members were:

Anita	3 rd	1916/162X
Cherie	6 th	1914/161X
Brett	9 th	1911/167X
Zeljko	14 th	1907/157X
Craig	17 th	1904/161X
Andrew	20 th	1900/159X

The Open Teams results were:

New Zealand "A"	1 st	7629/620X
Australia	2 nd	7622/644X
SSAA	3 rd	7604/639X
USA Team 2	4 th	7567/603X
USA Team 1	5 th	7559/633X
New Zealand "B"	6 th	7517/575X

With the very good scores from both our ladies, Australia placed first.

A jammed pistol cost one of the USA Team 1 shooters some 60 points which took them out of the running for the Open Trophy.

Possibly the highlight of the championships was to watch Robert Vadasz, a Border Patrolman from the USA, who used his metallic sighted pistol to shoot both the Metallic and the Open events.

He achieved scores of 1914/149X and 1918/153X. Truly amazing shooting.

The Presentation Dinner was held on the Saturday night, where all trophies and prizes were distributed, some of which had been hand crafted out of the local Kauri pine.

The Team returned to their home ports the following day.

Complete copy of the results may be found at www.wapc2016.com. ♦

Oceania Championships

Sporting Club Païta, Nouvelle Calédone

10–13 November 2016

BY JUDY HARDING, TEAM MANAGER

Small Bore Team GOLD, Field Pistol Team GOLD, Big Bore Team GOLD another excellent result for Australia.

The Team to travel to the Oceania Championships in New Caledonia was announced in August. Unfortunately one Big Bore Team member was unable to go after finding out he was to be deployed overseas with the RAAF for further training. The position was offered to the next person in line, but he too had already committed himself at work. The next in line, Keith Rigby accepted the offer without any hesitation. He and Michael Arden were then asked if they would fill in and shoot Small Bore and Field Pistol as well so that Australia had a full team in each of the three categories. They said yes and the final team consisted of Michael Arden (VIC), Kim Emery (NSW), Keith Rigby (NSW) and Team Manager Judy Harding (QLD).

Three team members had domestic flights to Sydney so it was an early 4am start to allow time to have a bite to eat, shower and dress before driving to the respective airports, Mick to Melbourne and Kim and Judy to Brisbane. All team members met on the 8th November at Sydney International and proceeded to Customs for the obligatory gun check. This went smoothly as usual and then it was up to check in. No problems here either so we had a leisurely stroll to

the boarding gate only to find out that we had been delayed by some 30 minutes due to the late arrival of the plane. Once on board it was time to relax for a few hours and watch a movie until the plane landed in New Caledonia at approximately 16:15. We were through the Customs check of firearms and ammunition and out the door by 17:15. Outside we met up with the New Zealand team with whom we were sharing a hire van and one of the local New Caledonian's was there to collect all the gun boxes for safe keeping during our stay. After the 52km drive and dropping the New Zealander's at their Hotel we arrived at our Hotel, quickly unpacked and headed down to the Sports Bar for our evening meal.

All Team members went for an early morning walk followed by breakfast and packed all their shooting gear ready for practice day. 100m Small Bore and Field Pistol were first on the agenda for us, while New Zealand headed to the 200m Big Bore range. A short break for a simple lunch of breadsticks and cold meat followed by gun check, we swapped ranges with the New Zealanders and headed for the Big Bore range. Unfortunately we could not do a lot of practice because with only three Team members each shooting all ten matches, the amount of ammunition we could carry between us was limited by the 5kg limit imposed by the airlines. All practice

< Australian Team

ammo was expended by 15:00, so we headed back to the Hotel via the supermarket for a quick swim before dinner.

Thursday 10th at 8.30 saw the start of the Oceania Championships with Australia, New Zealand and the New Caledonian A and B team shooting Small Bore Production, Revolver and Standing. Mick was first on the line for Production, scoring a perfect 40. Kim followed with another 40 in Production, then Keith with a 35 in Revolver. Mick on the line again for 19 Standing followed by Kim with a personal best of 34 Standing (Wow), then Mick was up yet again for a 37 in Revolver. Keith came back to the line with a 23 Standing, followed by Kim with a 39 in Revolver (missed the very first chicken) and finally Keith for his last match of the day, scoring yet another perfect 40 in Production. In the hot, humid, bright and glary conditions it was no mean feat that all Team members scored 40 for Small Bore Production. Well done Team! Back to the Hotel, organise the washing machine then off to the beach for a swim.

Friday saw a slightly easier day with only two matches each to shoot – being both the Field Pistol matches. Once again it was sunny and HOT! Mick drew the short straw again to be first and finished with 26 in Production. Kim came next scoring 29 for Production, followed by Keith with 19. Keith followed

himself to score 25 in Production Any Sights, then Mick with 28 and Kim at the end of the session with another 28. All shooting had finished by 13:00 so lunch was consumed by everyone and we left the range by 14:15. Once again a short stop at the shops to get more food and drinks and then back to the beach for another swim to cool down. That night we had dinner with some of the New Caledonian shooters and were back in bed by 22:00.

Saturday was to be another big day with everyone having to shoot Big Bore Production, Revolver and Standing. The rain overnight had made the air very hot and sticky. Mick was first again and began the ball rolling by shooting a 40 for Production. Kim followed with a 39 in Revolver, then Keith with 36 in Revolver. Mick's turn again for 38 in Revolver, then Keith with 38 Production and Kim 39 Production (we did not hear the load command so started late and ran out of time on the last turkey target). All shooters left their Standing match until last as the shadows began to slowly envelope the rams from the right hand side of the range. Mick scored 22, Keith 23 and Kim 26. All three countries had the same conditions for their Standing match, so no one was disadvantaged more than anyone else. After a late lunch we headed home, very tired. Both Australia and New Zealand team members were invited to one of the New Caledonian team members home that night for a meal of traditional French meats and cheeses. It was a rather late night, but all enjoyed winding down.

Sunday dawned very bright and sunny with the only two matches left to shoot being Small Bore and Big Bore Unlimited. Big Bore was first on the agenda. Today was Kim's turn to go first and he finished with 38/40 – pity about the 2 targets he nicked but which didn't fall. Keith was second with 28 after some ammunition problems and Mick was last on the line with 36. We all moved down to the 100m Small Bore range for the last match at about 10.30. As the sun climbed overhead, the "tiny" 1/5 scale targets looked infinitesimal on their stands. Kim started and finished with 36 (turkeys – he just put the dot on top of the front sight and hit all ten). Mick followed with 27 and then Keith was the last Aussie up, scoring a very creditable 34 in the difficult conditions.

^ BB Teams – 1st Australia,
2nd New Zealand, 3rd New
Caledonia

“This was another very successful trip for the Pistol Australia Metallic Silhouette Team with everyone looking forward to the Christmas/New Year break after the last two shoots on the Silhouette calendar for 2016.”

After a very enjoyable lunch of chicken and salad followed by fruit salad and some cake it was on to the Presentation presided over by Rob Boutcher on behalf of the Oceania President, Nick Sullivan. The Team category was first. Small Bore – 1st Australia (404), 2nd New Caledonia “A” (307) and 3rd New Zealand (279). Field Pistol – 1st Australia (155), 2nd New Caledonia “A” (113) and 3rd New Zealand (94).

Big Bore – 1st Australia (403), 2nd New Zealand (319) and 3rd New Caledonia (288). The individual match aggregates were next. Small Bore 4 Match Aggregate – 1st Kim Emery (Aus) 149, 2nd Keith Rigby (Aus) 132 and 3rd Michael Arden (Aus) 123. Field Pistol 2 Match Aggregate – 1st Kim Emery (Aus) 57, 2nd Michael Arden (Aus) 54 and 3rd Cyril Capecci (NC) 53. Big Bore 4 Match Aggregate – 1st Kim Emery (Aus) 142, 2nd Michael Arden (Aus) 136 and 3rd Murray Templeton (NZ) 127. A big thank you to all the New Caledonians – shooters, scorers and target setters – their hospitality and friendliness is second to none. They made us feel so welcome, they fed us, they provided safe storage for our firearms and they helped with any airport problems regarding language both coming and going.

Monday saw an 8.15 departure from the Hotel to collect the New Zealanders who were going to the airport with us so that they could take the van back to town ready for their departure the next day. The Customs check went smoothly, firearm serial numbers plus any unfired ammunition that was left, then through check in without any real worries. When the bags went through the X ray machine everything ground to a halt. We were all taken into a room where all the firearms and ammunition were checked again, this time by airport security staff. By the time this was completed it was good to know that the boarding time had been delayed and we made it to the gate with 15 minutes to spare. Once on board we were told we had to wait for

^ Kim – SB Standing

> Mick – BB Unlimited

an emergency landing and then maybe the runway would have to be checked as well depending on the landing. This wasn't the case, so we took off only 1 hour behind schedule. Another detour around restricted air space on the way back to Sydney meant a little more time was added to the flight. Back on Australian soil we had yet another hiccup at Customs when checking the firearms due to some Customs Officers who were still in training. Once the supervisor came on the scene everything was cleared up and those catching domestic flights had to run all the way to the transfer area in order to catch their flight. Everyone made it home safely on the Monday night.

This was another very successful trip for the Pistol Australia Metallic Silhouette Team with everyone looking forward to the Christmas/New Year break after the last two shoots on the Silhouette calendar for 2016, a Big Bore in Canberra and a Small Bore and Field Pistol in Brisbane. As usual the Team has done Australia proud, well done guys! ♦

60th ISSF & PA National Championships

8–16 April 2017

Program of Events

Sat 8 April	Practice

Wednesday 12 April 2017 at 6.30pm Service Pistol & Black Powder Dinner Pedens Hotel 196 Vincent Street, Cessnock	Sunday 16 April 2017 at 6.30pm Cessnock Ex-Services Club 201 Vincent Street, Cessnock
---	---

General information

Location

The Cessnock Pistol Club is located at 650 Maitland Road, Cessnock NSW. A map showing the location of the range and additional information relating to the Nationals will be available on the website www.cessnockpistolclub.com

Accommodation

Visit www.winecountry.com.au for tourist information. Limited space available for camping and caravans at the range.

Catering at the range

Breakfast, light meals and snacks will be available each day.

Armoury

An armoury will be available at the range.

Conditions of entry

- All resident Australian competitors must be current financial members of Pistol Australia.
- Pistol licences/permits and PA holster proficiency cards must be submitted for checking at Equipment Control.
- Enclosed footwear must be worn on all ranges.
- Smoking is not permitted on any range or within any building.
- Mobile phones and pagers must be turned off before entering any range.
- Competitors may not wear tank tops or garments with loose fitting necks.
- Firearms and gun boxes must not be left unattended anywhere on the range or in unlocked motor vehicles.
- All ties for ISSF matches without Finals will be broken by count-back. Shoot-offs for these events will not be conducted
- Full payment of fees must accompany entry form. Phone entries will not be accepted.
- Entries close 3 March 2017. Late entries may be accepted at the discretion of the Organising Committee.

The winner of 10m Men's Air Pistol will receive a match guns MGH1 Air Pistol donated by Euroarms.

60th ISSF & PA National Championships

8–16 April 2017

ENTRY FORM

(Please print all details)

Entries close Friday, 3 March 2017

Name: Male ☐ Female ☐ D.O.B. (Juniors only):

Address:

Suburb: Postcode:

Phone: Mobile:

Email:

MATCH DETAILS

Match	Open ¹	Junior ¹	Certified Score ²	Match	Open ¹	Certified Score ²
25m Standard Pistol				10m Air IPC		
25 Rapid Fire				Service Pistol		
50m Pistol				Service Pistol Unrestricted		
50m Pistol IPC				25yd Service Pistol		
25m Centre Fire				WA 1500 Revolver		
25m Pistol Women/Junior ³				WA1500 Pistol		
25m Pistol IPC				25m Black Powder		
10m Air Women				50m Black Powder		
10m Air Men						

Note

1. Place an 'X' against the matches you wish to enter. Juniors may enter both open and junior matches where applicable, they will shoot once, their score being used to determine results in both the open and junior match.
2. A certified highest score shot in the last 12 months is required for each match you wish to enter to enable squadding out if entries exceed range capacity.
3. Only women may enter the open division of 25m Pistol.

VOLUNTEERS

Competitors will be squadded to assist with range duties. Please indicate your preferences:

- ☐ Range Officer
 ☐ ISSF
 ☐ Black Powder
 ☐ Service Matches
 ☐ WA1500
☐ Register Keeper
 ☐ Target/Changer/Patcher
 ☐ Caller
