AST001 - WA1500:

The proposal is that all scores submitted and recorded since the 2019 PA/ISSF National Championships to mid - March 2020 remain valid and additional scores maybe submitted from the 1st January 2021 until the final selection competition at the 2021 PA/ISSF National Championships after which the team will be announced and will compete in the 2021 WA1500 European Championships. Team Manager Lindsay Jones.

Rationale

The selection period for WA1500 was interrupted by covid-19 and throughout most of Australia shooting ceased in mid- March and with the cancellation of the 2020 PA/ISSF National Championships a team was not able to be selected because the score from the Nationals is compulsory. By being able to submit new scores from the beginning of the 1st January 2021 will give them a just over 12 months to submit scores as normal the same as the other teams already selected. To be eligible for selection in the 2021 team members must have submitted a PA Team Nomination Form prior to 1st March 2020.

All Team Managers appointed at the November 2019 Executive will be the team managers for 2021 unless they wish to withdraw if that happens PA will call for nominations for the position.
